

Welcome to Mountain View Dental and the practice of Dr Eichstadt and Dr Sidhu

Thank you for choosing our office for your dental care.

In today's environment, cost is always a concern. We will work with you to maximize any insurance benefits that you may have. It is important for you to understand that there are over 100 different plans. Each one has been carefully negotiated between your employer and the insurance company. Your benefits are unique to your plan and are based entirely on the fine print in the contract, not necessarily what you need or is best for you. With the government's privacy legislation, we no longer have access to information about your benefits.

We are happy to send for preauthorization to your insurance company. Even then there may be limits set by the insurance company that may decrease or limit your benefit. There may be a time limit on treatment or you may have had dental treatment done elsewhere that changes your limits. The difference between the dental fees and what the insurance will pay is your responsibility. Any insurance short payments are out of our control and we would encourage you to discuss your benefit limitations with your employer to hopefully have them negotiate better coverage in the future.

Thank you for your understanding. If you have any questions, feel free to ask the front staff.

I understand that I am responsible for the fees that my dental insurance does not cover.
